

I am a listener of K-LOVE and want you to know that I believe the impact would be detrimental to my community if it was displaced by an LPFM broadcaster. My family listens to this radio station in the car, at home, and online. As a mother of young children it is crucial that we enjoy family safe music without fear of inappropriate commercials or songs. The service that K-LOVE provides to my family is one of encouragement and support in a world that is filled with rage and violence. Without it, I know many individuals would not have the kind of support, love, and encouragement provided. I believe that this family friendly radio station is in the best interest of my community and would be sorely missed if displaced. Thank you for your attention to my concerns.
